Performance Accessories offers color-coordinated transitions to give your floors a perfectly finished look.

WATERPROOF QUARTER ROUND FOR WETPROTECT® FLOORS
These waterproof moldings cover the expansion space between the floor and wall and provide a water-tight seal.

QUARTER ROUND
These pre-finished moldings cover the expansion space between the floor and the wall.

OVERLAP STAIR NOSE
The overlap stair nose creates a transition to the edge of the step by overlapping the flooring on the back end instead of being flush.

The multifunctional 5-in-1 molding allows you to utilize a single transition to create five different applications.

CARPET TRANSITION
The carpet transition provides a smooth transition between your hard surface floor and carpet.

T-MOLDING
The T-molding is used to transition between flooring of equal heights and in doorways.

END MOLDING
The end molding can be used to finish flooring where it meets vertical surfaces such as walls, fireplace hearths and sliding glass doors.

HARD SURFACE REDUCER
The hard surface reducer connects two floors of different heights.

STAIR NOSE*
The stair nose application provides a complete stair solution for both flush mount and overlap applications.
*Stair nose assembly requires additional purchase of the aluminum track (SBASE).

Approved for use with the following TORLYS underlayments

- Safe and Sound 5-in-1
- TORLYS Cork Natural (2.5mm)
- TORLYS CorkPlus™ Blue (2.5mm)

note: the use of 6 mil poly vapour barrier is mandatory when using cork underlay or laminate with attached pad on cementitious subfloors.
